CASABLANCA / CONTENT + VISUAL ASSETS

EASY BURGER

WEBSITE STARTER PACK

A real starting point.

Research, menu data, brand references and a practical brief for your restaurant website.

Prepared for Keltoum
3 November 2026

23

menu records in 6 categories

6

official Instagram stills

47

original images catalogued

Ready for development. Current prices, exact street number and publication rights still need restaurant approval.

Open START_HERE.html inside the ZIP for the full image catalogue.

The restaurant, grounded.

Primary evidence first. Unresolved details stay visible.

Name / concept	Easy Burger / smash burgers, sides and sweets	S1, S3
Instagram	@easyburger.ma	Brand profile
Location	Rue Ennahas Annahoui, Casablanca	S4, S5
Street number	04 on Restaurant Guru / 1 on Tripadvisor	UNRESOLVED
Telephone	+212 664 470 771	Directory: S5
Map reference	33.58029, -7.635277	Approximate
Delivery	No delivery for now	Brand bio: S1
Other contact	Email / WhatsApp / official domain unknown	Do not infer

OPENING HOURS

Monday	Closed
Tuesday–Friday	12:30–15:30 / 19:30–22:30
Saturday	13:30–18:30 / 20:30–23:30
Sunday	14:30–22:00

Source: brand post of 24 October 2026 [S2]. It resolves the Sunday discrepancy: Tripadvisor says 14:00; the brand says 14:30. Use Africa/Casablanca. Holiday exceptions still need confirmation.

Dine-in is visible in the photos. Takeaway, reservations, payment methods, accessibility and parking were not verified. Use a menu / visit / call flow for the first release.

The visible menu, transcribed.

23 records, including sauces and an upgrade surcharge. All prices provisional.

SECTION	ENTRY	DH*
Smash burgers	Easy	55
	Double Easy	80
	Classic Double Cheese	75
Combos	Menu Midi	69
	Menu enfant	50
	Upgrade Menu	+20
On the side	Salade César	60
	Frites	20
	Frites Patates douces	30
	Chicken tenders	45
	Loaded fries (Classic / Spicy)	45
Sauces	Easy	5
	Sweet creamy	5
	Green mayo	5
	Spicy Mayo	5
	Ketchup Heinz	5
	Yellow mustard	5
Desserts	Easy Sundae	30
	Scoopable cookie + Soft Serve	45
	Mini beignets	25
Boissons	Eau / Soda	15
	Lemonade	20
	Lemonade 3/4p	50

* MAD / DH inferred from the Casablanca context; the photo does not print a currency. Source: user-uploaded menu image [S3]. Current prices must be approved by the restaurant.

Unspecified: burger recipes, combo contents, allergens, portions and offer times. +20 is a surcharge, not a meal. Sauce price 5 is a section-level price interpreted per sauce. Preserve “Lemonade 3/4p” until its serving meaning is confirmed.

Source photo + desktop/mobile SVG and PNG boards are included.

A visual direction to build on.

A web proposal inspired by observed assets, not an official brand manual.

ORANGE	CREAM	INK	BUTTON	MUTED
#FE4C1E	#F6F2E7	#191715	#B8330E	#62594F

Orange #FE4C1E is approximately sampled from the Instagram logo JPEG. Cream, ink and the darker orange are proposed web values. Small white labels should use the darker orange, not the vivid orange.

BOLD. SIMPLE. EASY.

Barlow Condensed / headings

DM Sans gives menus, prices and contact details a readable body style. Both font families and their OFL licence files are included. The actual logo font has not been identified.

DESIGN RULES

- Keep the real food large. Use a portrait hero beside the text on desktop.
- Use cream space, black text, strong headings and restrained rounded controls.
- Keep menu prices aligned and category filters easy to reach on a phone.
- Use real texture and photography; avoid invented product pictures or ingredients.
- Request the real vector logo. The recovered logo is only 150 x 150 pixels.

Files: design/tokens.css, design/tokens.json, assets/fonts and assets/icons.

Six official stills to work with.

All images are untouched reel covers. Publication permission remains unconfirmed.

Hero / burger category

Exact burger variant unknown.

Mini beignets / light sauce

Sauce identity not confirmed.

Mini beignets / dark sauce

Caption mismatch: not a burger.

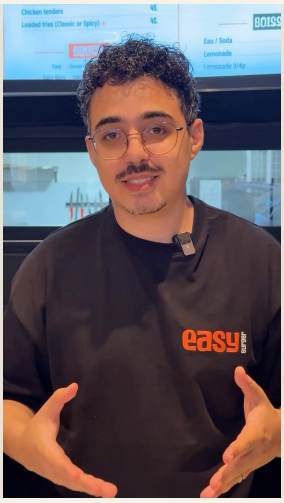

Lifestyle / shared table

Good atmosphere reference.

Reel cover / meal spread

Subtitle is embedded in image.

Team / social reference

Identity and role not inferred.

Also included: 39 visitor / directory references, one original menu photo and the Instagram logo. Watermarked files are research references, not production assets.

Build a useful first release.

French first. Make the menu and the visit easy to understand.

01 / HOME

A clear food image, a short headline and direct access to the menu.

02 / MENU

Six category filters; actual item names and owner-approved prices. Keep menu text in HTML.

03 / GALLERY

Approved food and venue images, with honest labels and meaningful alt text.

04 / VISIT

Confirmed map, address, split opening hours, telephone and Instagram.

PROPOSED FRENCH HERO COPY

Le smash. Tout simplement.

Burgers, frites, douceurs : découvrez la carte et retrouvez-nous à Casablanca.

VOIR LE MENU / NOUS TROUVER

- Use a shared menu data file and reusable UI components. No duplicate price lists in code.
- Provide empty, error and missing-image states; loading feedback only when data really loads.
- No ordering, delivery, WhatsApp or booking flow until those services are confirmed.
- Use responsive images, keyboard-friendly controls, visible focus and reduced motion.

Detailed implementation brief and a copyable build prompt are inside docs/.

What the owner needs to confirm.

The missing inputs are specific, so you can begin the UI now.

01 Menu validity

Current prices, currency display, recipes, portions, allergens and add-ons.

02 Combos and options

Menu Midi / enfant contents and timing; +20 upgrade; sauce portions; Lemonade 3/4p.

03 Location and hours

Street number 04 or 1; official map pin; holiday / Ramadan exceptions.

04 Contact and services

Phone, email, WhatsApp, takeaway, delivery, bookings and accepted payments.

05 Brand originals

Vector logo, approved colour values and original high-resolution photographs.

06 Image identification

One named photo for each burger and missing item, with permission to publish.

07 Story and ownership

Approved about text, person names / portraits, domain and future content editor.

Before launch: validate the menu, business details and image use; then test mobile layouts, contact links, keyboard access and all visible states. The supplied JSON leaves unresolved fields null or flagged.

No message was sent to the restaurant as part of this work.

Evidence you can revisit.

Research date: 3 November 2026. Click a source title to open it.

S1 / Easy Burger - public Instagram profile

Public profile metadata: name, logo, no-delivery statement and Monday closure.

S2 / Easy Burger - opening-hours announcement

24 October caption recovered from public embed: regular hours and Sunday 14:30.

S3 / Photographed menu on Restaurant Guru

Photographed menu: names and visible prices. Date and current validity unknown.

S4 / Restaurant Guru - Casablanca listing

Local directory: address variant, approximate pin and watermarked gallery.

S5 / Tripadvisor - Easy Burger Casablanca

Unclaimed listing: phone, alternative street number and visitor image references.

S6 / Six public official Instagram reel covers

Six reel-cover images; partial feed access, not all posts or video files.

S7 / Barlow Condensed - Google Fonts

Suggested display font; original file and OFL licence included.

S8 / DM Sans - Google Fonts

Suggested body font; original variable font and OFL licence included.

S9 / Restaurant structured data vocabulary

Primary reference for the conservative Restaurant JSON-LD starter.

S10 / Google Maps URLs

Primary reference for Maps search / directions links.

Limits: Instagram profile metadata and six public covers were accessible; Stories, the full feed and original video files were not recovered. Exact product recipes, a complete per-item photo set and current price approval remain missing. No synthetic food images are presented as real products.
